

SDP Review Checklist

Data

- RE_ID, EA_ID, facility_ID are random
- Country and round are correct
- All SIF variables are clock (dates are correct)
- facility_type_list is ordered with 96 as other
- Variable label choices (scroll through variables in Stata) / labelbook
- Ensure all variables are labeled (scroll through)
- Labelbook: yes_no_list: Check label name and that values are 0/1
- Do file #2 checks
- Append to previous round
- Ensure Strata are correct (see next page)
- Make sure data is saved in version 12, csv, & excel file
- EAserved*, **EAsweight**
 - su Clusterweight
 - replace Clusterweight=Clusterweight/r(mean)
 - sum Clusterweight
 - ***The mean should be 1.

Paper questionnaire

- facility_type_list
- SQ5: 3 → -88
- 6 month versus 12 month
- Footer with Round

Materials

Only add your tab to the master codebook once it is totally complete. This includes:

1) questionnaire (as PDF)

PMA201X_CCRX_SDP_Questionnaire_17Feb2016

2) dataset notes (Word doc)

PMA201X_CCRX_SDP_DatasetNotes_19Feb2016

3) data (.dta, .csv, .xlsx)

PMA201X_CCRXSDP_19Feb2016.dta

4) Master codebook -

PMA2020_SDP_Master_Codebook_19Feb2016_RELEASED

region, work_begin, previously_participated

3*, 22/28/28_mo, 31/32/39a/39b/52_method

any_mobile_, charge/ counsel/ prescribe/ provide_method, EAserved*

changes_list, cou_pro_pre_list, region_list, stock_list, facility_type_list,

*** Delete the "INTERNAL PMA BMORE notes" tab &

*** update the "Instructions" tab with today's date and an X for country/rounds in that master codebook

Strata

| Country | Strata | Total number of strata |
|----------------|-------------------------------|-------------------------------|
| Ghana | Region*ur | 20 |
| Ethiopia Addis | Four major regions *ur, other | 10 |
| Uganda | DHSregion (no ur/rural) | 10 |
| Kenya | county*ur | 17 (Nairobi is only urban) |
| Nigeria | LGA | |
| Burkina | ur | 2 |
| Indonesia | province-ur | |
| Niger | commune | 5 |
