

Lagos Panel Sample

Lagos Phase 2 panel data was conducted among females aged 15-49 at the time of the Phase 2 survey who were interviewed at the baseline survey between December 2019 and January 2020 and consented to follow-up (92.8% of baseline population). Of the 1399 eligible respondents, 19.2% were not reached for follow-up. Of those reached, 1130 (80.8%) completed the survey, for a response rate of 97.2% among contacted women. The flowchart below provides the details on the loss to follow-up and panel women sample in Lagos.
