| <p>Bonjour. Je m'appelle _____ et je travaille pour l'Institut Supérieur des Sciences de la Population (ISSP) de l'Université Joseph KI-ZERBO. Je vais à présent vous lire une déclaration expliquant l'enquête que nous menons. Note d'information</p> <p>L'Institut Supérieur des Sciences de la Population (ISSP) de l'Université Joseph KI-ZERBO en collaboration avec le ministère de la santé du Burkina Faso et l'école de santé publique et de la santé reproductive de l'université Johns Hopkins aux Etats-Unis mène une étude dénommée PMA (Performance Monitoring for Action). Cette étude a pour objectifs de mettre en œuvre un système de suivi des performances accomplies dans le domaine de la planification familiale et de la santé en général au sein de la population et des structures de santé au Burkina Faso. Les informations que nous recueillerons serviront aussi pour informer les orientations programmatiques en matière de planification familiale au Burkina Faso.</p> <p>Consentement</p> <p>Vous avez été sélectionné(e) au hasard pour participer à cette étude. Je souhaiterais vous poser quelques questions concernant votre expérience avec les services que vous avez reçus aujourd'hui. Votre participation à cette étude implique une interview sur les services de santé reproductive, qui durera 10 à 25 minutes. Nous vous poserons des questions sur cette structure de santé, ses employés et les services que vous avez reçus. Le responsable/propriétaire de cet établissement a aussi été interviewé. Les informations de cette interview pourront être utilisées par des organisations de santé afin d'améliorer les services ou pour mener de futures</p> | |

En plus vos réponses n'affecteront en rien la nature ou la qualité des soins que vous pourriez recevoir à l'avenir de la part de ce prestataire.

Après cette enquête, nous vous demanderons si nous pourrions vous recontacter par téléphone dans quatre mois pour mettre à jour vos informations sur votre expérience des services que vous aurez reçus. Cette participation est volontaire. Participer à cette étude ne vous offre aucun bénéfice direct, cependant cette enquête produira un bénéfice pour la communauté en permettant aux programmes gouvernementaux et non gouvernementaux de mieux planifier les services de santé, particulièrement dans le domaine de la santé reproductive.
