INFORMED CONSENT Find the competent female respondent. Administer the consent procedures.	
Bonjour, je me nomme et je travaille pour l'Ecole Nationale Supérieure de Statistique et d'Economie Appliquée (ENSEA) d'Abidjan. Nous menons une étude dans le domaine de la santé, plus spécifiquement sur la planification familiale en Côte d'Ivoire. A cet effet, je vais vous lire ce formulaire afin de vous exposer l'objectif principal de l'étude et vous donner des informations supplémentaires dans le but solliciter votre participation à cette étude.	
Présentation et objet de l'étude En collaboration avec le Ministère de la Santé, de l'Hygiène Publique et de la Couverture Maladie Universelle de la Côte d'Ivoire et l'école de santé publique et de la santé reproductive	

de l'université de Johns Hopkins aux Etats-Unis. l'Ecole Nationale Supérieur de la Statistique et d'Economie Appliquée (ENSEA) réalise une étude dénommée PMA (Performance Monitoring for Action).

L'objectif principal de cette étude est de mettre en œuvre un système de suivi des performances accomplies dans le domaine de la planification familiale et de la santé reproductive des femmes au sein de la population et des structures de santé en Côte d'Ivoire. En outre, les informations que nous collecterons serviront à éclairer les programmes de développement social en Côte d'Ivoire.

Pourquoi est-ce qu'on vous demande de participer ?

Vous avez été sélectionné(e) au hasard pour participer à cette étude. Je souhaiterais vous poser quelques questions concernant votre expérience avec les services que vous avez reçus aujourd'hui. Votre participation à cette étude implique une interview sur les services de santé reproductive, qui durera 10 à 25 minutes. Nous vous poserons des questions sur cette structure de santé, ses employés et les services que vous avez reçus. Le responsable/propriétaire de cet établissement a aussi été interviewé.

Les informations de cette interview pourront être utilisées par des organisations de santé afin d'améliorer les services ou pour mener de futures enquêtes. Des chercheurs pourront aussi utiliser les données collectées auprès de cette structure à des fins d'analyse. Cependant, votre nom ne sera pas relié à vos réponses afin de protéger la confidentialité de votre identité. Nous ne partagerons pas vos informations et vos réponses avec le personnel de cette structure, et le personnel de cette structure ne saura pas comment vous avez répondu à nos questions. En plus vos réponses n'affecteront en rien la nature ou la qualité des soins que vous pourriez recevoir à l'avenir de la part de ce prestataire.

Après cette enquête, nous vous demanderons si nous pourrons vous recontacter par téléphone dans quelques mois pour mettre à jour vos informations sur votre expérience des services que vous aurez reçus. Nous tenons à préciser que la participation à cette enquête est volontaire et il n'y a aucun avantage personnel direct pour votre participation dans cette étude. Néanmoins nous comptons vivement sur votre participation car votre point de vue est très important. Si vous ne souhaitez pas répondre à une question en particulier, faîtes-le moi savoir et je passerai à la question suivante.

Vous ne recevrez pas de motivation financière pour votre participation, mais en guise de remerciement on vous offrira une carte de recharge de 500 FCFA comme compensation pour le temps que vous avez consacré pour répondre à notre questionnaire.

Protection de la confidentialité des données Les données seront collectées sur des smartphones. Toutes les données seront envoyées par voie électronique sur le serveur « cloud » de l'étude PMA. L'utilisation et le partage des informations seront rigoureusement soumis à des principes de précautions pour garantir leur sécurité et confidentialité. Une fois la collecte
