consent_start INFORMED CONSENT <i>Find a competent member of the household. Read the greeting on the following screen.</i>	note
consent Hello. My name is _____ and I am working for the Center for Research, Evaluation Resources, and Development in collaboration with the Centre for Advance Medical Research. We are conducting a local survey about various health issues. Your household has been selected for this survey. We would very much appreciate your participation in this survey. This information will help us inform the government to better plan health services. The survey usually takes 15 minutes to complete. We would then like to ask a different set of questions to female members of this household who are between the ages of 15 and 49. Whatever information you provide will be kept strictly confidential and only fully de-identified data will be used when conducting analyses, presenting results, or sharing data. Participation in this survey is entirely voluntary. If we should come to any question you don't want to answer, just let me know and I will go on to the next question. You can choose not to participate at all or you can stop the interview at any time. However, we hope that you will participate in this survey since your views are important. If you have any questions about the study and your right as a research participant, you may ask me now or you may also contact Dr. Elizabeth Omoluobi at Center for Research, Evaluation Resources and Development in Ile-ife, Nigeria at +2348033816486. At this time, do you want to ask me anything about the survey?	note
