If so, you are free to stop the interview at any time.</p> <p>Next, we would like to ask a series of questions to women in the household, aged between 15 and 49. You will not receive any financial incentive for your participation, but as a thank you we will offer you a hygiene kit (consisting of soap and washing powder) as compensation for the time that the members of your household have spent answering our different questionnaires.</p> <p>Protection of data confidentiality Data will be collected on smartphones. All data will be sent electronically to the PMA study cloud server. The use and sharing of information will be subject to strict precautionary principles to ensure security and confidentiality.
