<p>Hello. My name is _____ and I am working for the International Center for Reproductive Health in Kenya, in collaboration with the Ministry of Health and the Kenya National Bureau of Statistics. We are conducting a local survey that asks women about various health issues, especially nutrition. We would very much appreciate your participation in this survey. This information will help us inform the government to better plan health services. The survey usually takes between 15 and 20 minutes to complete. Whatever information you provide will be kept strictly confidential and will not be shown to anyone other than members of our survey team.</p>	<p style="text-align: right;"><code>({available} = 'yes') and (not({unlinked}) or {proceed_with_unlinked})</code></p>

Participation in this survey is voluntary, and if we should come to any question you don't want to answer, just let me know and I will go on to the next question: or you can stop the interview at any time. However, we hope that you will participate in this survey since your views are important. At this time, do you want to ask me anything about the survey?

Section 3 - Maternal, Adolescent, and Household <i>Now I am going to ask you some questions about yourself and your household in general.</i>	009a=1
--	--------

301. Now I'd like to ask you about foods and drinks that you ate or drank yesterday during the day or night, whether you ate it at home or anywhere else. I am interested in whether you had the food items I will mention even if they were combined with other foods. For example, if you had a soup made with carrots, potatoes and meat, you should reply "yes" for each of these ingredients when I read you the list. However, if you consumed only the broth of a soup, but not the meat or vegetable, do not say "yes" for the meat or vegetable. As I ask you about foods and drinks, please think of foods and drinks you had as snacks or small meals as well as during any main meals. Please also remember foods you may have eaten while preparing meals or preparing food for others. Please do not include any food used in a small amount for seasoning or condiments (like chilies, spices, herbs or fish powder). I will ask you about those foods separately.	009a=1
